

10 O'CLOCK ROCK

This week, the church service focuses on when Jesus first met his disciples after the resurrection. At first, the disciples were scared; they thought Jesus was a ghost. Jesus told them not to be afraid saying 'Peace be with you', he showed them the marks on his hands and feet and they ate together. They were delighted to see Jesus again, but one person who was not so easily convinced was Thomas. He wasn't with the rest of the disciples when Jesus returned and couldn't believe them when he heard about it. A week later, when all the disciples were together - including Thomas, Jesus appeared again. Showing Thomas his hands and feet Jesus said to him "Stop doubting and believe what you see." After this Thomas knew that Jesus had risen. Jesus said "You believe me because you have seen me. But more trusting are those who have not seen me but still believe in me."

For this weeks task I'd like to encourage you to have fun with it and make it your own.

Best Wishes,
Daisy

Thought For the Week

In the church service we wish each other peace by shaking hands. What does peace mean to you? Is it when you're outside? When everything is quiet? Or do you feel peaceful when you're surrounded by people you love?

What can you do this week to share peace with people?

The Proof Is In The Pudding Cupcake Recipe

For this craft you will need:

- 1 (or more) Grown Ups
- 110g Softened Butter/Margarine
- 110g Caster Sugar
- 2 Eggs
- 110g Self Raising Flour
- 1-2tbsp Milk

For the Buttercream Icing

- 140g Softened Butter
- 280g Icing Sugar

Step One

Ask a grown up to heat the oven to 180C. Put your cupcake case in a baking tray.

Step Two

Mix together the butter and sugar until they're one mixture then add in the eggs a little at a time.

Step Three

Use a large spoon to fold in the flour then pour in the milk. Keep stirring until everything has been mixed together. Then divide your mixture into the cupcake cases and place in the oven for 10-15 (until they're golden brown).

Step Four

Whilst your cupcakes are cooking it's time to make your icing. To do this mix together the butter and the icing sugar until it looks creamy. Finally add in a little milk. If you'd like to you can add some food dye to make your icing different colours.

Once your cakes have cooled down you can use a spoon to put the icing on top. If you want to go one step further you could carry on decorating your cupcake with sprinkles or anything else you can find.
